

# CensusAtSchool.ie Teacher Registration Form

The National Centre for Technology in Education, an agency of the Department of Education and Science, is working with the Project Maths Development Team, NCCA and CSO in the development and support of the [www.CensusAtSchool.ie](http://www.CensusAtSchool.ie) website.

To streamline how teachers retrieve their class data from the CensusAtSchool website, they must register for a personal username and password. Students will need to know their teacher username when completing questionnaires. Teachers will use their username and password to retrieve data input into the CensusAtSchool questionnaires by their students.

Once registered, a personal username and password will be sent out by email.

## personal details

Surname	First Name(s)
Male <input type="checkbox"/>	Female <input type="checkbox"/>
Home Address	
<hr/> <hr/>	
Email Address	
<hr/>	
School Name & Address
