

## 13. I See!

### Description

Arrange pupils on their own spot marker in a large circle. Teacher stands on a spot marker in the centre of the circle. The teacher begins by saying "I see." The pupils answer in chorus by saying "What do you see?" The teacher responds with a sentence indicating what the pupils are invited to do, for example, "I see all

pupils doing 5 star jumps". Pupils respond to this command and complete the instruction. Repeat, with a different activity each time.

### Equipment

- Spot Markers

### Variations

- As a variation, the pupils could each take turns as the leader, choosing a different exercise each time. If this is too difficult, teacher could provide a list/pictures of suitable exercises from which the pupils could choose.
