

15. Dab relays

Description

Arrange the pupils into groups of 5 or 6 giving each pupil a spot marker. Pupils in their groups place their spot markers in straight lines keeping a safe distance apart. Place numbers at the other end of the yard in a hula hoop per group. The first pupil in the line runs and collects one number. Whilst that pupil is running the other pupils in the line move forward to the next spot. When the first pupil returns he/she dabs for the next pupil to go. The first runner places the letter/number/jigsaw piece at the start of the line. Once all the items are collected the last runner must all the numbers together and call out the answer.

Equipment

- Spot Markers
- Numbers (printed, laminated and cut)
- One hula hoop per group

Variations

- Increase or decrease the distance of the run.
- Use a variety of methods of travel, i.e., hop, skip, jump, side step.
- Invite pupils to multiply all the numbers together.
- Invite all pupils to balance on their spot marker until the other pupil returns back to the group.
