Padlet

What is it?

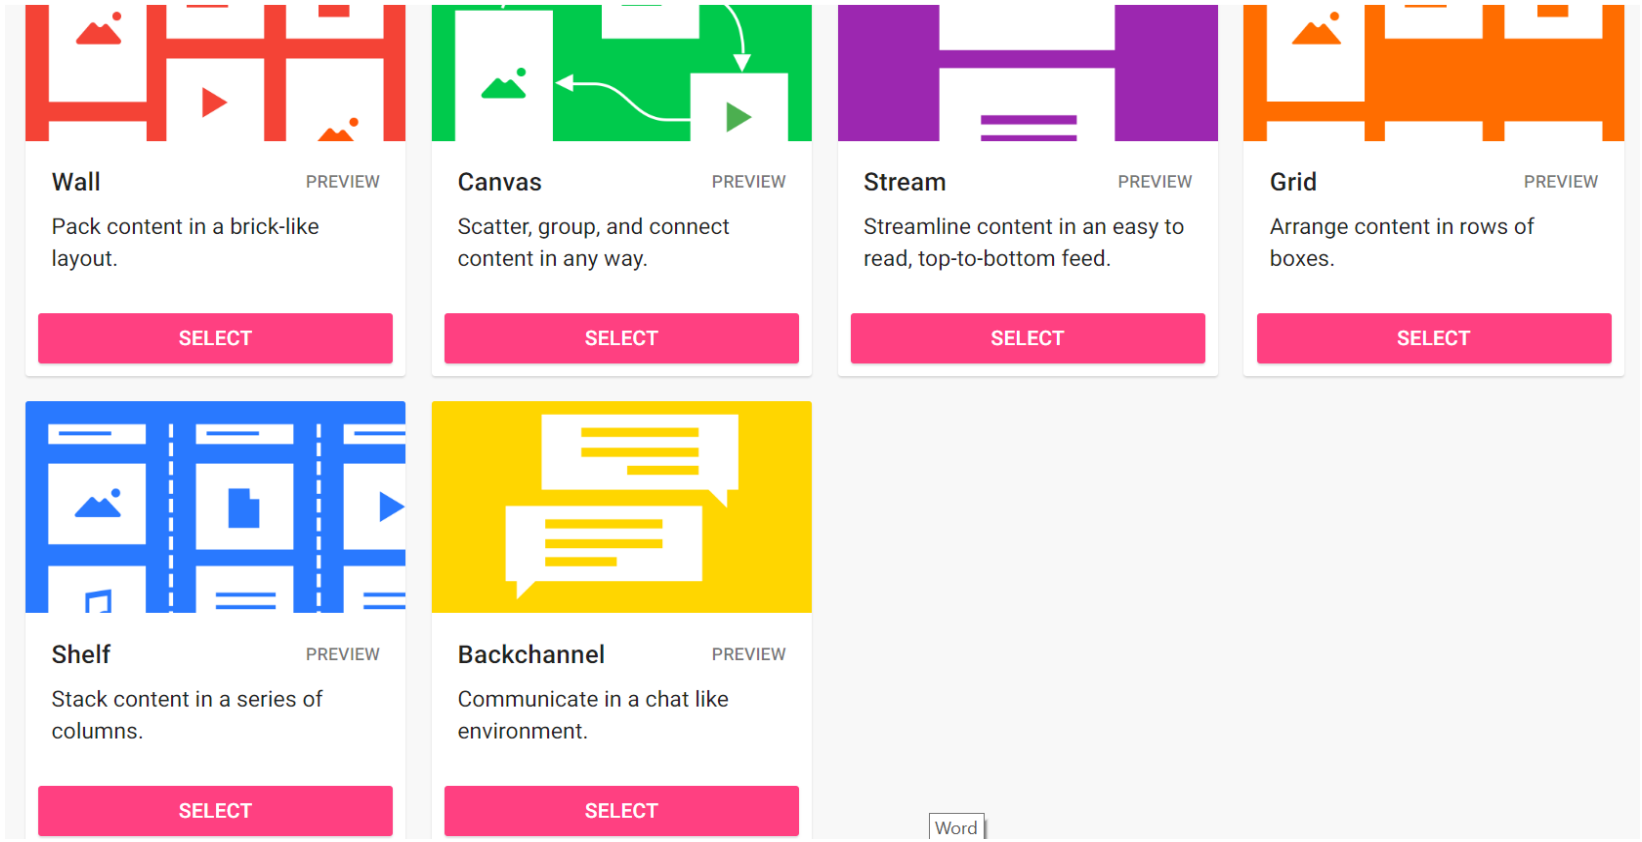
Padlet is an application which creates online bulletin boards that can be used to display or receive information on any topic.

Padlet Dashboard

Why would we use it?

Deliver and receive content	Support teaching	Augment learning experience	Student responsibility in learning
Flipped classroom	Storage	GDPR	Environment

Padlet Types / Formats



Padlet offers a choice of presentation formats – choose the one best suited to the content

Have a go! – task 3

Padlet example

- Create a revision Padlet
- Follow the steps to “Build a Padlet" in your booklet - (Pg. 10)
- Add four items - text, an image, a relevant video and a voice-over
- Click - Share / Save as Image, to see what it would look like as a poster

Log in and click “make a Padlet”

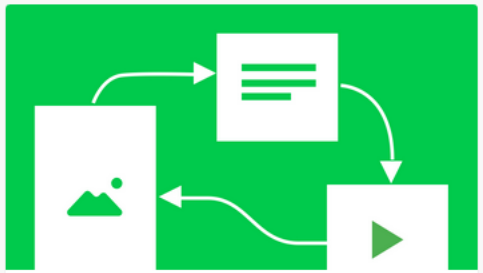
Wall PREVIEW

Pack content in a brick-like layout.

SELECT



Canvas PREVIEW

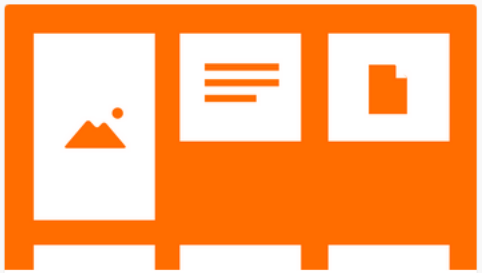
Scatter, group, and connect content in any way.

SELECT

Stream PREVIEW

Streamline content in an easy to read, top-to-bottom feed.

SELECT



Grid PREVIEW

Arrange content in rows of boxes.

SELECT

ENG 12:52 23/02/2019

Some Padlet Ideas

- Create a **community noticeboard** for your class
- Create a **revision board**
- Give **homework**
- Create a forum where **students can contribute / upload homework**
- **Save and store** student work.

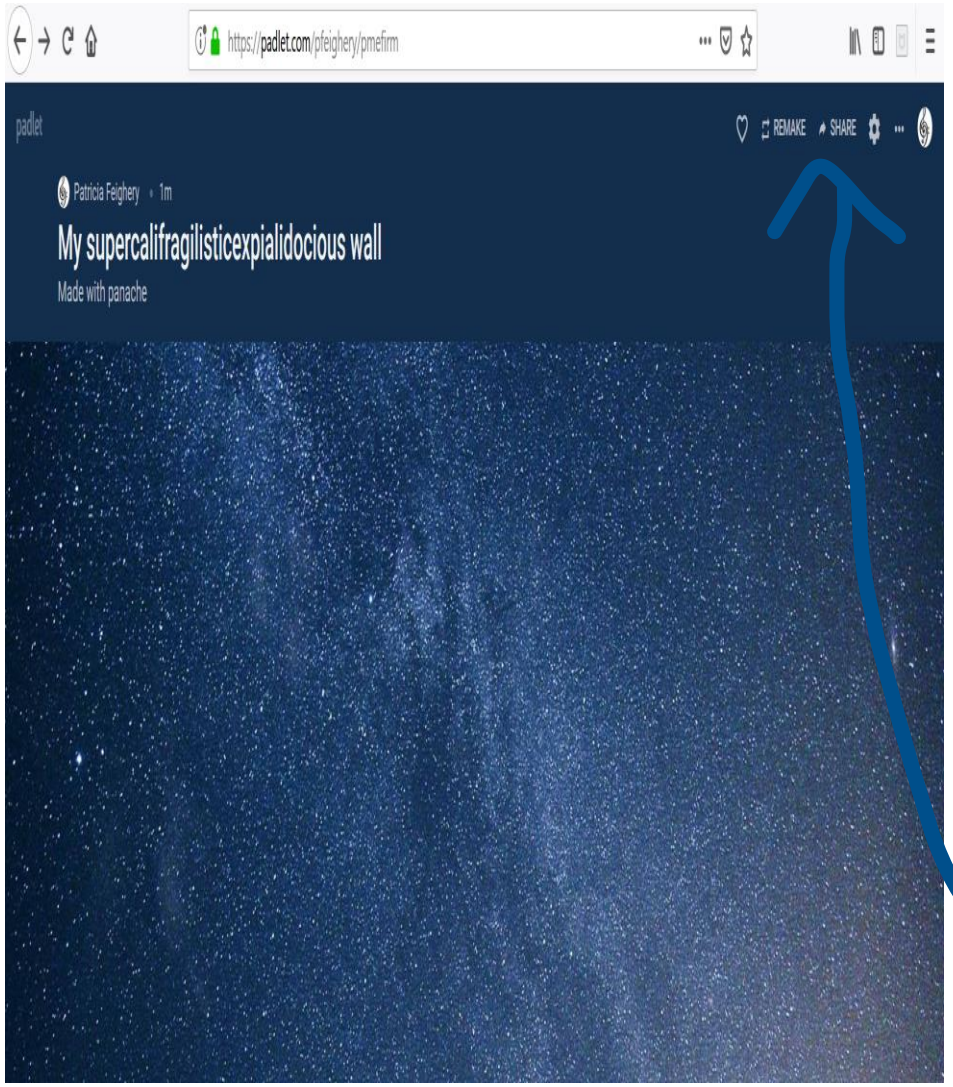
Other features

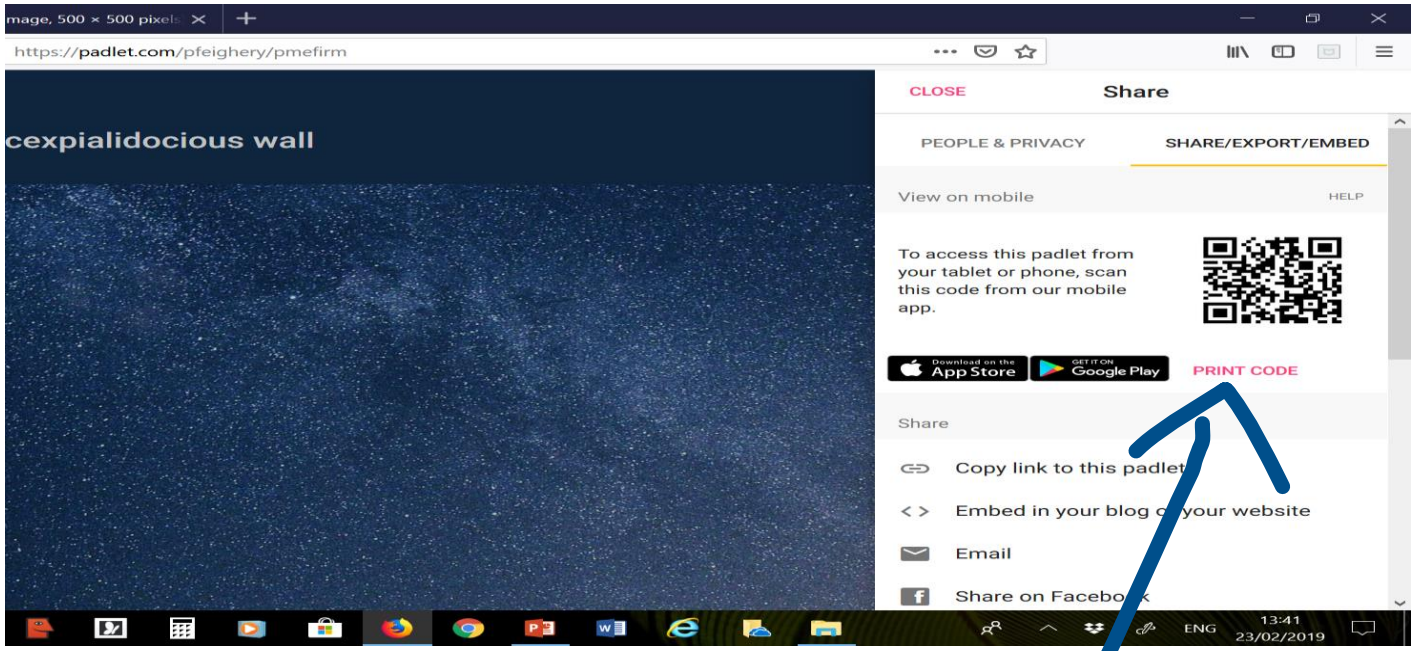
1: Padlet uses its own QR code which can be used to gain access from iPhone / iPad app

2: Padlets can be saved as an image to create a wall poster, linking learning inside / outside the classroom (use image option)

3: Can be saved as a pdf (notes) etc (use print option)

4: Can import all sounds, files, images from your PC / online sources etc





1. QR in Padlet - Click on "Share", then Print QR Code
