Help Help!!

Fionn has been fishing all day and he caught lots of fish. He did not think of how he was going to carry it back to his teacher Finnéigeas. Can you help design and make a transporter for Fionn that would help him bring back the fish to Finnéigeas?

A Fintastic Cooler

When Fionn arrived home with all the fish he had caught the day was very warm. He is very worried the fish will not stay fresh and they need to have the fish for dinner! Can you help Fionn design and make a container that will keep the fish cool? What materials could he use? What materials would act as good insulator?
