

### **Instructions for Placemat Activity:**

1. On one section of the placemat write down one thing that you learned from the video clip
2. Pass it to another member of your group to write their answer in the next section
3. Continue the process for the third and fourth member of your group.
4. Then examine all four answers on the placemat. Next decide through group discussion which one you will relay back to the class
5. You must jot down reasons underneath the other options why you did not choose them e.g. 'we had studied this in class already' or 'this is not accurate what he really said was' or 'we all agreed this is not as closely related to geography as the other answer'
