

Draw a brine shrimp

How do the brine shrimp react to the 4 colours? Are there differences between the colours?

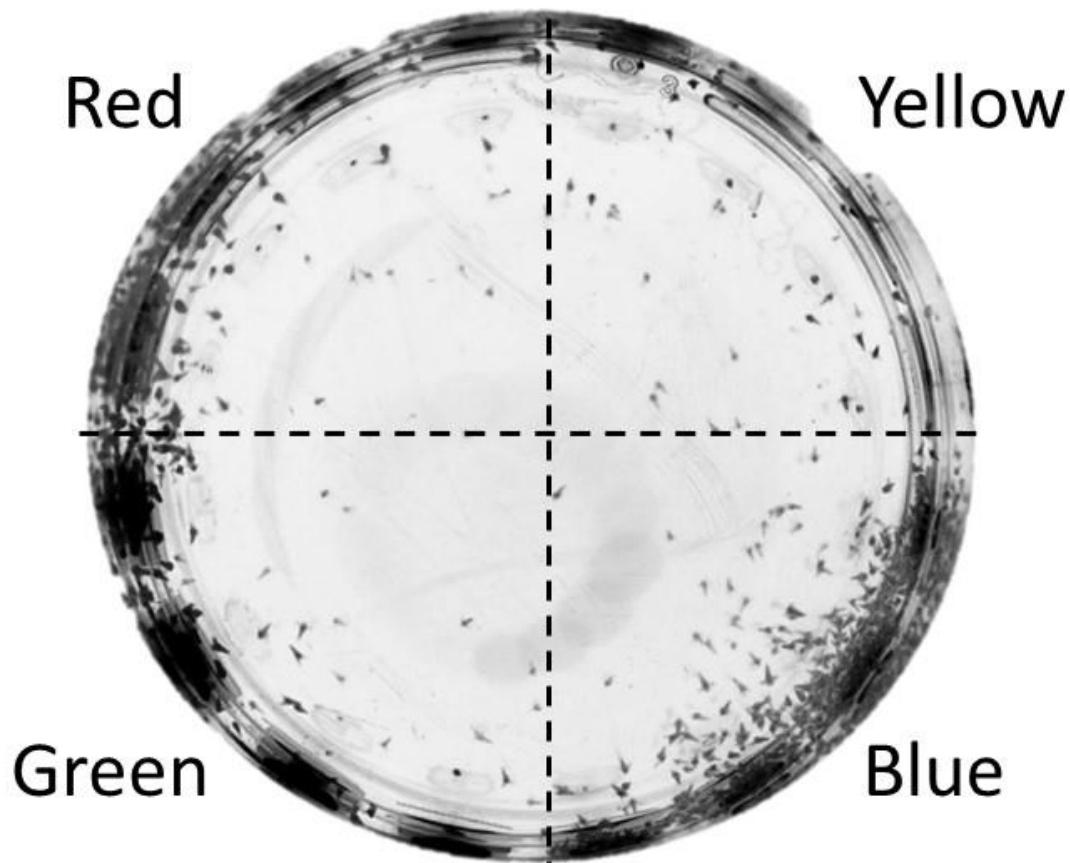

Red:

Green:

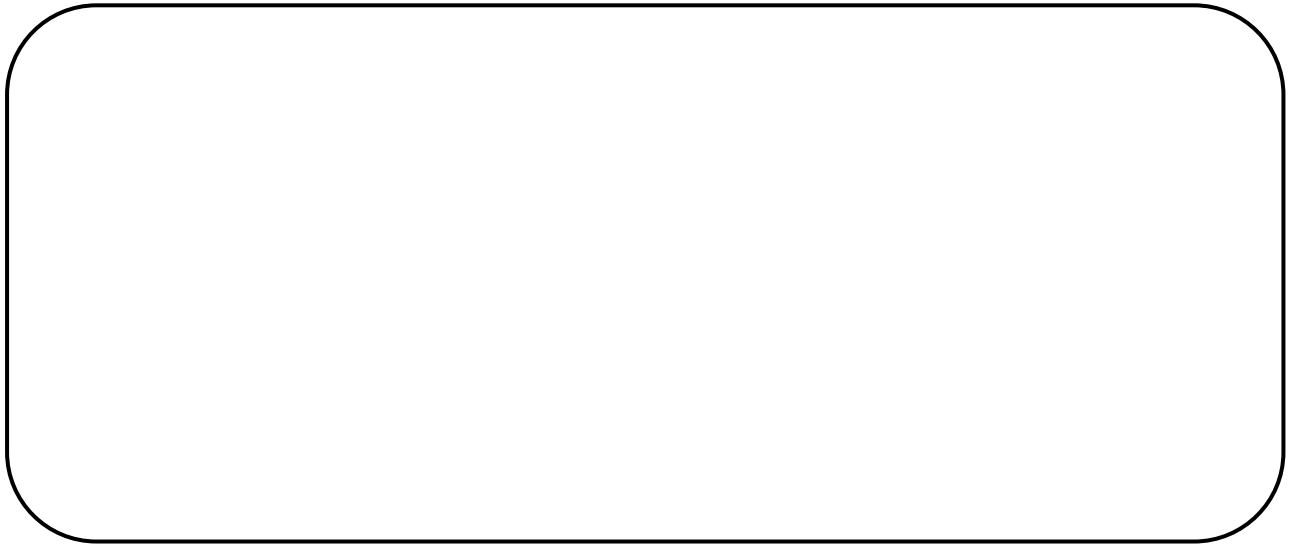

Blue:

Yellow:

This is a picture of the brine shrimp at the end of the four colour experiment. Are the brine shrimp closer to one colour of light than the others?

Draw a picture of a comb jelly

How do you think the Comb Jelly get the food from the tentacle into the mouth?

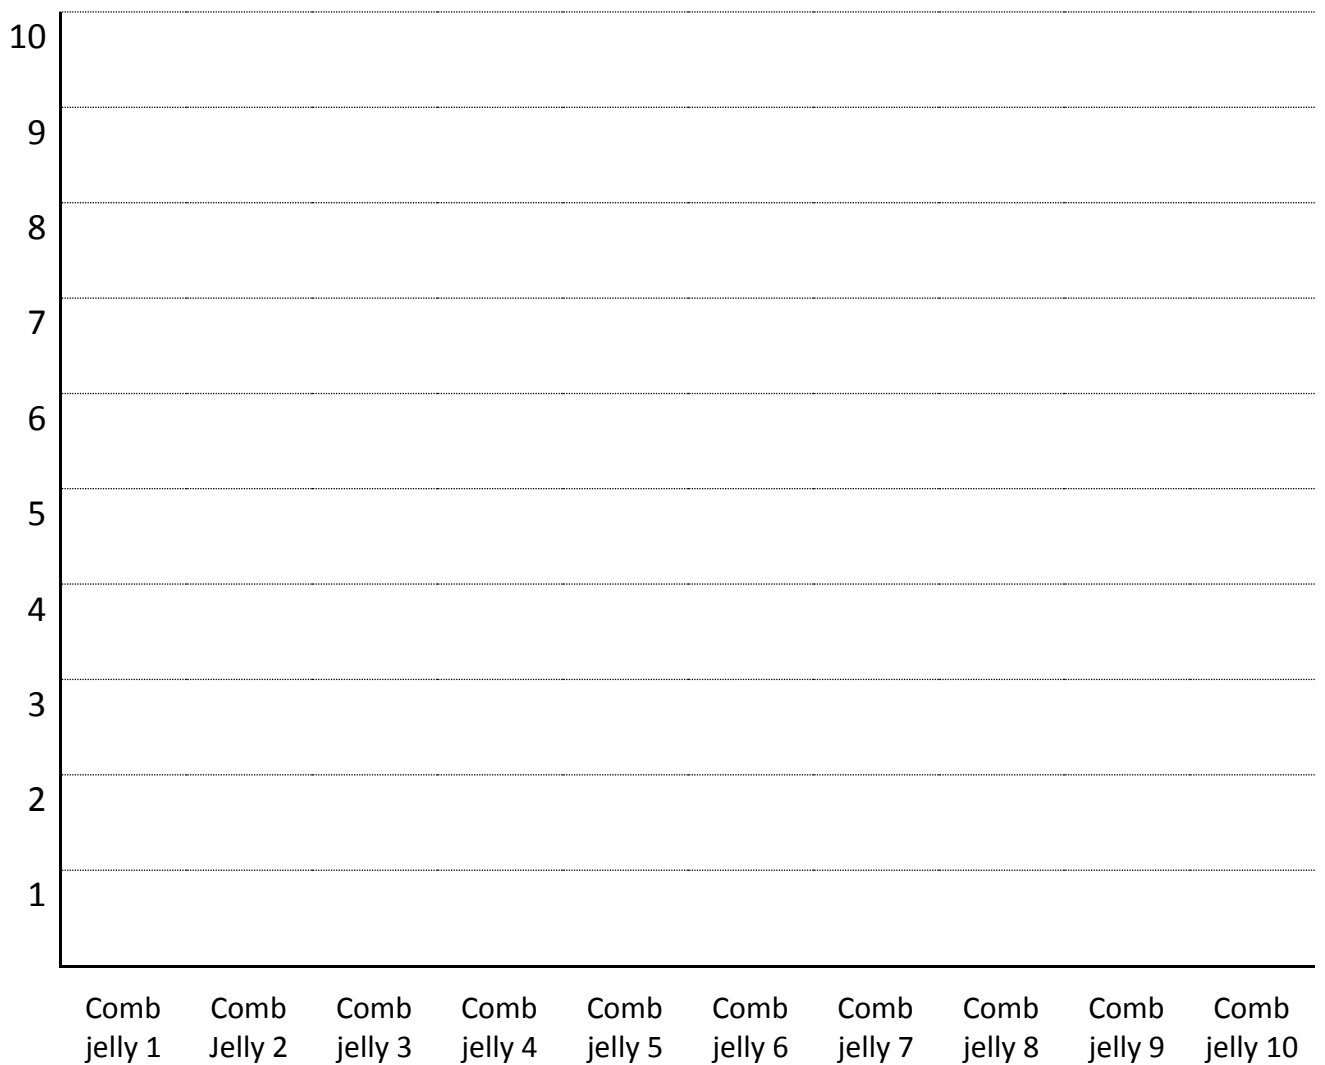

What did you see the Comb Jelly do when they eat?

Did you notice how they spin around? Do they spin the same number of times each time? Count the number of spins and write it here.

comb jelly number	number of spins

What is the average number of spins?

Make a graph of the number of spins each comb jelly shows.

What do you think will happen when you touch a comb jelly?

What happened when the comb jelly was touched? Did they all do the same thing? Describe what you saw.

Some seem to swim up and some seem to swim down and some don't seem to react at all. Tick the box for the reaction you saw for each comb jelly.

comb jelly number	swim up	swim down	no reaction
Total			

Make a graph showing how many comb jellies showed each reaction.
