

A Witch's Brew

'Double, double toil and trouble;
Fire burn, and cauldron bubble'
Macbeth by William Shakespeare

You must add the potions to the witch's cauldron in the correct order to escape the spell the witch cast on you. Below are clues you need to solve in order to discover which potion goes in first, second, third, fourth and finally fifth.

Potion One: The number on this potion is a multiple of 3

Potion Two: The number on this potion is a factor of 20

Potion Three: The number on this potion is a prime number

Potion Four: The number on this potion is the square root of 49

Potion Five: The number on this potion is the highest common factor of 16 and 24

The order: _____
