Wild Teaching

Cross-curricular Lessons Outdoors
for Agoraphobic Teachers

By Paul O'Donnell

Measures

- How far apart will you separate your seedlings?
- Measure the height of your pea plant.
- Use a calendar to record the key growth points of your peas.

Data

- Record the changing heights of your peas on a trend graph over a number of weeks.

Problem Solving

- How many peas can you plant in an IKEA bag?
- Do all pea pods have the same number of peas?
- Pass the Peas <https://nrich.maths.org/1247>

Digital Technology

- Photograph your observations and share with your class.
- Record a report for 'Gardening World'. This can be audio or video.
