Assessment Arrangements for Junior and Leaving Certificate Examinations 2022

Leaving Certificate Applied 2021-22

An tOllmáireachais
Department of Education

This is a summary advice note for school management and teachers of LCA 2021/22. It sets out the key curriculum and assessment arrangements for LCA Year 1 and Year 2 students for the academic year 2021/22. Further detail is provided in the guidance *Leaving Certificate Applied (LCA): Updated Advice for management and teachers of LCA 2021/2022 in Second-Level Schools and Centres for Education*.

Arrangements for the satisfactory completion of Modules

LCA Year 2 for the academic year 2021/22

- Students should complete a **minimum of two Key Assignments** to achieve the credits available for each module and maintain a minimum of 90% attendance.

LCA Year 1 for the academic year 2021/22

- Students should complete **all four Key Assignments** and a minimum of 90% attendance should be maintained.

For both Year 1 and Year 2 LCA Students

- The learning outcomes for each module should be completed and, where relevant, in line with public health advice.
- If a student cannot attend the school due to a valid Covid-19 related restriction, the school should be flexible in its approach to monitoring and recording attendance.
- In the event of a localised closure where learning is progressed remotely, schools should ensure that an appropriate system is in place to track students' engagement.
- Credits for the satisfactory completion of modules are submitted to the SEC through the LCA portal, following normal arrangements.

Arrangements for the completion of Tasks

LCA Year 2 for the academic year 2021/22

- Session 3: Students should complete the Practical Achievement Task **AND** either the Vocational Education Task or the Contemporary Issues Task. This means that LCA Year 2 students have one less task to complete.
- Session 4: As normal, students should complete the Personal Reflection (Part Two).

LCA Year 1 for the academic year 2021/22

- There is no change to the schedule for the completion of Student Tasks for LCA Year 1 students

For both Year 1 and Year 2 LCA Students

- Student Tasks should be planned and considered in line with up-to-date public health advice.
- Arrangements for the examination of the tasks, to include interviews, will be based on the most up-to-date public health advice at the time.

Teaching, Learning and Assessment: parents' perspectives

Leaving Cert Applied allows for students of different learner profiles/strengths to achieve and receive recognition for their learning.

Parents wanted to see the promotion of both practical skills (such as financial management) and personal/interpersonal skills in order to better prepare young people for life after school.

Smyth et al (2019)

Working towards the Key Assignments and tasks will enable them (students) to take charge of their own learning by setting goals, developing action plans, and receiving and responding to assessment feedback

Learning Outcomes

If learning outcomes are used as lists of items to be taught, it will be difficult to successfully introduce substantial and sustainable pedagogical improvements.

Interpretation and use of Learning Outcomes in different situations develops best when teachers share examples of student performance and debate their separate judgements of particular Learning Outcomes.

Differentiation in LCA

The LCA English and Communications module descriptor is differentiated to cater for students of differing abilities and levels of achievement.

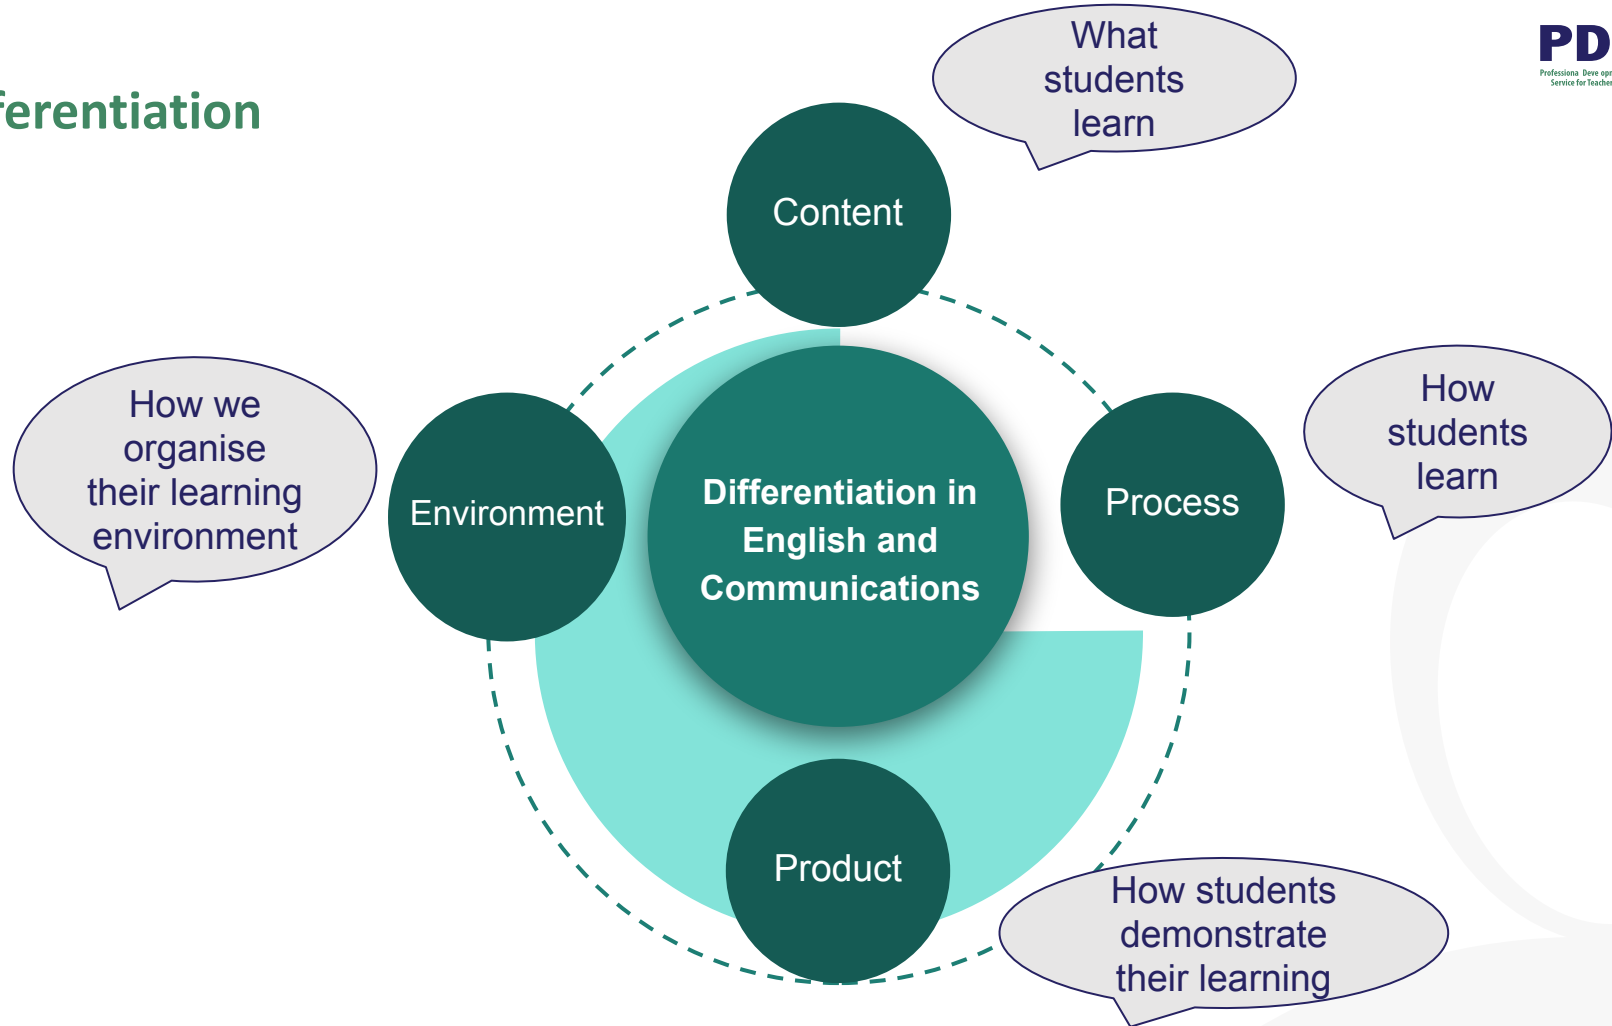

Learning outcomes should be achievable relative to each student's ability level.

Learning outcomes promote teaching and learning processes that develop students' knowledge and understanding incrementally, enabling them to analyse, evaluate and apply knowledge to different situations as they progress.

Formative assessment in English and Communications

Working towards the Key Assignments and tasks that students engage in will enable them to take charge of their own learning by setting goals, developing action plans, and receiving and responding to assessment feedback.

Formative assessment and the writing process

Formative assessment plays an essential role in the writing process.

Formative assessment helps students to reflect on the writing they have done so far and plan for the writing they will do in the future.

Formative assessment is essential for students in the drafting, redrafting and editing of written work.

Formative assessment builds self-esteem and can give students confidence in approaching writing tasks in the future.

Formative assessment can also be done through self or peer assessment; this encourages a collaborative classroom environment where students learn from and encourage each other in the writing process.

Quick Write Activity

Consider the video you have just watched.

Take two minutes to write down your reflections on the video.

Some ideas to consider:

1. What did you find interesting?
2. What did you learn from the video?
3. Where will you use the information from the video?

Three questions

When reading a student's work and seeing something the student should reflect on, the teacher puts a numbered circle at that point in the text.

Underneath the student's work the teacher writes a question relating to the first numbered circle, writes a question for the second question and the third.

However, in order for the feedback to be used formatively, the students must respond to the questions asked.

All subject teachers should implement teaching approaches and methodologies that facilitate the meaningful inclusion of students with special educational needs. These include:

- Co-operative teaching and learning within mainstream classrooms
- Collaborative problem-solving activities
- Heterogeneous group work
- Differentiation
- Interventions to promote social and emotional competence
- Embedding of Information and Communications Technology (ICT) in teaching learning and assessment

Circular No 0014/2017

Circular to the Management Authorities of all Post Primary Schools: Secondary, Community and Comprehensive Schools and the Chief Executive Officers of the Education and Training Boards

Special Education Teaching Allocation

1. Purpose

The purpose of this Circular is to advise schools of the revised allocation process for Special Education Teachers to mainstream post primary schools from the 2017/18 school year.

This revised allocation process will replace the Learning Support and English as Additional Language Support (LS/EAL) scheme, whereby a general allocation of resources had previously been allocated to post primary schools annually.

It will also replace the National Council for Special Education (NCSE) allocation process which provided additional resource teaching supports to schools, to support students who had been assessed as having Low Incidence disabilities, in accordance with DES Circular 70/2014 https://www.education.ie/en/Circulars-and-Firms/Active/Circulars/0070_2014.pdf

It will also replace the allocation process for post primary schools to support students with High Incidence special educational needs, as set out in DES Circular 0010/2012 https://www.education.ie/en/Circulars-and-Firms/Archived/Circulars/0010_2012.pdf

The new Special Education Teaching allocation will provide a single unified allocation for special educational teaching needs to each school, based on that school's educational profile.

Special Education Teaching Allocation

1. Summary of Circular

The main issues addressed in this Circular are:

- Special Education Teacher (SET) allocations will be updated for mainstream schools from September 2019. (Section 2)
- 1,000 additional special education teachers (SETs) have been provided for schools since 2017, while the total number of SETs has increased by 37% since 2011, from 9,740 in 2011, to over 13,300 at present. (Section 3)
- There will be no reduction to the overall number of special education teaching posts within the school system. (Section 3)
- As re profiling is occurring, some schools will gain additional allocations, where the profile indicator data indicates these schools have additional needs. Some schools will receive slightly reduced allocations, where the data indicates less need. (Section 3.1). Most schools (70%) will retain their existing allocations, with no change. (Section 3.2)
- The allocations are being done in line with the principles of equity and fairness which underpin the new model which is designed to be responsive to identified needs
- Where adjustments occur, the adjustments will take place on a graduated basis. Schools with a reduced allocation will receive their full profiled allocation plus 80% of their retained element. The retained element is the portion of the allocation which is over and above what the profile indicates should be allocated for the school. (Section 3.2)
- Changes to Allocations will be capped to 20% of the adjustment to the retained element which would otherwise have occurred had a graduated approach not been applied. Changes are being applied on a gradual basis, in order to assist schools to transition more smoothly from the previous allocation system to the profiled model. (Section 3.2)
- To minimise disruption to schools allocations, small gains and losses will not be applied.
